Data Points

Notes for next JCIC meeting – July 21

- As detailed in the last Data Points, we are proposing that the following **Event data set fields** should no longer be required:
    - CA0-29 - Claim ID Number
    - DA0-05 - Source of Pay (in second and third DA0 records only)
    - DA0-28 - Medicaid ID Number
    - DA0-26 - Admission Date

- Please be prepared to discuss proposals for additional **Client data set fields**. If approved, these fields would be required starting in FY 2006 (July 2005):
    - **State Guardianship** - needs final approval - was approved in March 2004 meeting
    - **Primary language used by client** and **Ability to understand English** - introduced by David Smith at last meeting.
    - **Last updated date** to determine when Client's demographic fields were last reviewed/updated - Needs further discussion.

- **New codes** within existing fields will be proposed:
    - **6/96** (Not Applicable), **7/97** (Unknown) to supplement 8/98 (Unknown/Not Collected). This is to meet current TEDS standards. Fields that are currently using these codes will be exceptions to this addition.
    - Add code **7** to Race (Client field 10) to indicate "Multi-racial" (this code is being collected by TEDS, but is not currently required).

- Proposals for changes to **Possible errors**:
    - If the DMHMRS Modifier 1 is 38/39 and the Provider is <u>not</u> a CSU site, a Possible error will be generated.
    - Drop the edit that the Admission Date (Client field 9) must be before the Initial Contact Date (Client field 8) because Initial Contact Date is no longer required.
    - Change all General errors related to Client's Initial Contact Date (field 8) to Possible errors since this field is no longer required.

Reminders

- **Event submissions in HIPAA format will be required starting with July 2004 data!!!**

- The four Client completeness fields **will be counted** in FY2005 (beginning with July data).

- Place of Service codes 35-39 & 50 are not valid in HIPAA - don't use them!

Kentucky County Quiz!

For fun, see if you can name the Kentucky counties that answer the following questions (answers will appear next month):

Which Kentucky county ….

1. …shares the name of the first U.S. president to be assassinated? (This county was actually named after a Revolutionary War officer)

2. …is in two pieces, separated by Missouri?

3. …is the farthest north?

4. …is named after Kentucky's first governor?
